

A-76 DDC-CA PWS At the Core PWS Challenges

**Presented by:
Dave Harnish
DDC A-76 Project Office**

Process Evolution

- **As the process matures, the PWS has evolved and we modified the approach to meet the requirements.**
- **Providing efficiencies through competition and innovations in PWS development.**

Challenges

Impacts on the PWS include:

- **Level of Detail required**
- **Data Gathering**
- **Consistency with similar studies in the Agency**

Level of Detail

- **Gathering more detailed information**
- **Have definitive starting and stopping points for each requirement**
- **Developing more comprehensive language to explain some of the requirements that may be exceptions to the rule**

Data Collection

- **Identify Data Required**
- **Identify Sources of Data**
- **Establish Manual Data Collection Methods if Needed**
- **Gather Data**
- **Continue Throughout the Process**

Current Initiatives

- **Delineate Requirements**
- **Conduct Pre-Planning initiatives to prepare for 12-18 month length of study period**
- **Comply with J-33 Report requirements**
- **PWS Team representation on SSEB**

Challenges of Lessons Learned

- **Developed more depth in the PWS**
- **Categorized detailed workload and Acceptable Performance Levels (APLs)**
- **Emphasized transition planning and development**
- **Continuing education**
